

**RCI CRE Program on Developing Mathematics Concepts for the Visually Impaired at primary level.**

**National Institute for the Visually Handicapped (NIVH), Dehradun sponsored the program.**

**Date:** Monday December 16 to Friday December 20, 2013

**Venue:** Helen Keller School for the Sightless, Krishnagar, Nadia.

From SVH Annapurna Moruwada and Hena Basu participated in the entire training. Though content of the training appeared stereotype like other National Institute for the Visually Handicapped (NIVH), Dehradun programs lacking innovation and upgradation and mostly focused on special school teachers, yet interaction with special educators working under Sarva Sikhsha Mission added a new dimension.
